

COMPANY PROFILE

August 2025

Headquarters: Caracas, Venezuela

MISSION

At Venelux, C.A., our mission is to deliver comprehensive and innovative solutions in the construction, design, and civil engineering sectors. We also serve as a reliable distributor of essential supplies for the oil and petrochemical industries. We're committed to excellence, efficiency, and sustainability in all our endeavors, aiming to exceed client expectations and contribute to national development.

VISION

To be a leading and recognized company in Venezuela and the wider region, renowned for our integrated services, technical expertise, and unwavering commitment to quality and client satisfaction across civil construction, design, engineering, and industrial supply sectors.

CORE BUSINESSES:

1. Construction, Design & Civil Engineering:

- Civil Works: Execution of a wide range of civil construction projects, including residential, commercial, and industrial buildings, infrastructure development (roads, bridges, utilities), and urban planning.
- Architectural Design: Innovative and functional design solutions for various structures, incorporating modern aesthetics, sustainability principles, and client specifications.

CORE BUSINESSES:

1. Construction, Design & Civil Engineering:

- Structural Engineering: Expertise in the analysis, design, and optimization of structural systems to ensure safety, durability, and cost-effectiveness.
- Project Management: Comprehensive management of construction projects from conception to completion, ensuring timely delivery, budget adherence, and quality control.

CORE BUSINESSES:

2. Distribution of Supplies for the Oil & Petrochemical Sector:

- Industrial Equipment: Procurement and distribution of specialized machinery, tools, and equipment essential for oil and gas exploration, production, refining, and petrochemical processes.
- Chemicals & Additives: Supply of various chemicals, lubricants, and additives critical for operational efficiency and maintenance in the petroleum and petrochemical industries.

CORE BUSINESSES:

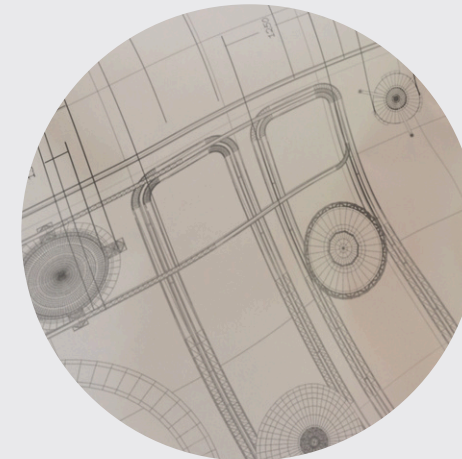

2. Distribution of Supplies for the Oil & Petrochemical Sector:

- Piping & Valves: Distribution of high-quality pipes, fittings, valves, and related components designed to withstand the demanding conditions of oil and gas transportation and processing.
- Safety & Environmental Solutions: Provision of safety equipment, environmental protection products, and related solutions to support compliance and operational integrity in hazardous environments.

KEY STRENGTHS:

- **Integrated Solutions:** Offering a unique blend of construction, design, engineering, and industrial supply capabilities.
- **Experienced Team:** A highly skilled and dedicated team of engineers, architects, project managers, and logistics specialists.
- **Quality Commitment:** Adherence to the highest standards of quality, safety, and environmental responsibility.

KEY STRENGTHS:

- **Client-Centric Approach:** Focused on understanding and fulfilling the specific needs and goals of each client.
- **Strategic Partnerships:** Established relationships with leading manufacturers and suppliers in the industrial sector.
